Write a story telling what 4H has meant to you this year. Include some of the things you have learned and some of the things that have been the most fun. Tell how you have helped others by being a 4H member.

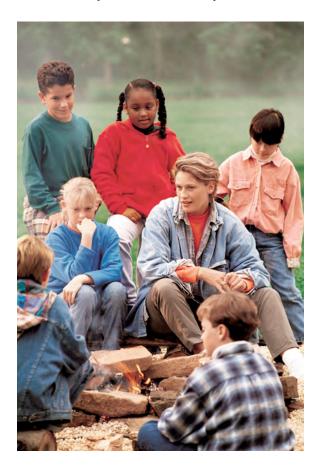

This year I learned that the more I put into 4-H, the more I get out of it. I spent my entire woodshop class rotation at school working on a wall shelf to enter at the Fallback into 4-H Festival, and I encountered a lot of problems while I was working on my project. Even though I had some trouble with my shelf, I spent all 36 days on it. My shelf ended up being named "Best in Division" at Fallback. I think that this is because I put so much effort into it. Also, even though I was nervous about Fallback, it ended up being the most fun thing that I did all year in 4-H. All year, I began to realize that I could have lots of fun in 4-H if I always participated. I made sure that I was at all of my club's meetings and I even made a website to give updates to club members who missed meetings. This made me feel proud because I was reducing stress for other 4-Hers. It also taught me that reaching your goals and making a difference requires responsibility and commitment.

This record was written by the member and is believed to be accurate.

Evaluate Your Progress What skills did you learn or improve? These are the goals you have met. This year, I have greatly improved my body position when I'm riding. This improved my confidence, posture, and jumping. When I finally did canter an entire course of jumps, I was very proud of myself because I was riding a lesson horse that I had always been nervous about riding. How would you improve or change your project for next year? Since I have met a major riding goal this year, next year I want to try very hard to change something about myself that will make life easier for me. For example, I would like to stop putting things like 4-H phone calls off until the last minute.

You may use separate forms for individual projects or use one that will help you plan general goals for the year.

Based on a review of your financial summary for your 4-H project(s), what did you learn? Would you do anything differently?

Based on my financial summary for this year, I learned that more than half of all the horse-related money that my family spends is spent on riding lessons. Next year I would like to use every column on the chart. Next year, I am giving to work at the barn to reduce my riding lesson costs.

I learned that every type of equipment is suited for a certain kind of horse or riding discipline. You should always use tack that was made to make your type of riding easier for both you and your horse. You should also always make sure that your equipment fits you and your horse properly for it to do its job. I learned this from books and magazine articles that I have read and from the experiences that I have had.

List and define 3 words that you learned this year.

Girth cover - soft fleece or other soft material that surrounds the girth. The girth cover prevents sores.

Breastplate (neckstrap) - the straps which pass around a horse's breast and fasten to the girth straps to keep the saddle from slipping back

Cavesson - The basic kind of noseband on a horse's bridle

In what activities related to your project did you participate?

| Date | Brief Explanation. Be sure to include if you participated or organized the activity. |
|-------------|---|
| 2/7/0 8 | I read the "Equipment" chapter of <u>The Ultimate Encyclopedia of</u> <u>Horse Breeds and Horse Care</u> to learn more about bit differences. |
| 2/24/ 08 | I read part of the "Tack and Equipment" Chapter of The New Rider's Horse Encyclopedia and learned about saddle fit importance. |
| 3/18/ 08 | I read "Riding Sidesaddle", an article in Young Rider, and learned about me differences between sidesaddles and more common saddles. |
| 4/5/0 8 | I read "A Quick Guide to Saddle", an article in <u>Young Rider</u> , and learned why the features of western saddles are important. |
| 4/29/ 08 | I read "Bit Check", an article in <u>Young Rider</u> , and learned about why certain bits are best for certain horses. |

What skills (knowledge, handling, etc) did you acquire? How did you acquire them?

The knowledge that I require were identifying bits and saddles and knowing why someone would use them. I acquired this knowledge by reading horse books and magazines.

What challenges did you encounter in your project? How did you resolve them?

The challenge that I encountered in my project was that most of my club's demonstrations were about parts of the horse. So that I could meet my goals. I had to make sure that I took the time to read the horse books and magazines that I had for information.

How will you use what you learned?

I will use what I have learned to make riding easier. Now that I know more about tack and equipment, I can find the things that I need in the tack room without any help. This will make me more confident at the barn because sometimes I am embarrassed when I need help finding the right equipment.
